NetWork 9

Što je Dev, a što je Ops?

NetWork 9

Što je Dev, a što je Ops?

- “It works on my machine...” – Dev
- “It’s not the server, it’s your code.” - Ops
- “6 days after successful deployment, server experiences high load.” - Dev or Ops?
- “Software is deployed to test environment. You can’t log into application” - Dev or Ops?
- “There is an issue with build server. Code doesn’t build.” - Dev or Ops?

- Ne postoji formalizirana “primopredaja” između dva tima
- Operations se suočava s problemima tek u produkciji
- Organizacijski “silosi” – izolirani rad (“mi” – “oni”)
- Dok development razvija nešto novo – promjena, operations se brine da “sve radi” – stabilnost
- Različiti alati
- Nezainteresiranost za drugi tim
- Različita okruženja (DEV-TEST-PROD)
- Blame game
- Različiti procesi (Scrum, ITIL, Waterfall....)

- Glavni problemi današnjeg razvoja bilo kojeg proizvoda, a posebno u IT-u:
 - Brzina isporuke
 - Stabilno okruženje
 - Nepoznavanje želja i potreba unaprijed
 - Promjene, promjene, promjene
- Glavni izazovi u IT-u danas :
 - Concept to cash
 - Time to market
- Plan je NIŠTA, planiranje je SVE!
- Izazovi:
 - Smanjiti probleme
 - Ostati konkurentan
- Što je zajedničko: Uberu, Spotify, AirBNB, Apple Pay...?

UBIJAJU TRADICIONALNI NAČIN POSLOVANJA

NetWork 9

Brzina i pouzdanost

COMPANY	DEPLOY FREQUENCY	DEPLOY LEAD TIME	RELIABILITY	CUSTOMER RESPONSIVENESS
Amazon	23,000/day	minutes	high	high
Google	5,500/day	minutes	high	high
Netflix	500/day	minutes	high	high
Facebook	1/day	minutes	high	high
Twitter	3/week	minutes	high	high
Typical enterprise	once every 9 months	months or quarters	low/medium	low/medium

NetWork 9 Solucije?

“DevOps is the union of people, process, and products to enable continuous delivery of value to our end users.”

- Donovan Brown

- DevOps je prvenstveno:
 - Nova kultura
 - Novi način razmišljanja

PROJECT EXECUTION METHODOLOGIES – THE CHANGE

WATERFALL

AGILE

PROJECT EXECUTION METHODOLOGIES – THE CHANGE

WATERFALL

AGILE

DEVOPS

NetWork 9

Što je to – DevOps?

- Osnovni principi DevOps-a:

- **Agility**

- Lean – eliminate waste

- Automatizacija – automatizirajte sve što je moguće

- Continuos delivery
- Continuous integration
- Continuous deployment

"Continuous Delivery is about putting the release schedule in the hands of the business, not in the hands of IT. Implementing Continuous Delivery means making sure your software is always production ready throughout its entire lifecycle – that any build could potentially be released to users at the touch of a button using a fully automated process in a matter of seconds or minutes.

Continuous Integration

Continuous Integration usually refers to integrating, building, and testing code within the development environment.

Martin Fowler

Continuous Deployment

Continuous Deployment is subtly different to Continuous Delivery in that release are automatically pushed into production when all tests pass. In Continuous Delivery release is a human decision.

Source: Dave Farley

- DevOps je potpuno novi način **razmišljanja**
- DevOps je potpuno novi način organizacije
- DevOps je potpuno novi način rada
- DevOps ne poznaje odjele unutar IT-a, a pogotovo DEV i OPS
- DevOps mora biti prepoznat od managementa inače je osuđen na propast
- DevOps se uvodi korak po korak, jer mijenja navike
- DevOps uvođenje zahtjeva vrijeme i strpljenje

FAIL FAST

LEARN FASTER

- Project Manageri starog kova i Project Management kako se (još uvijek) danas koristi su – **M R T V I**
- Ili će se prilagoditi ili će morati naći novi posao
- **Jednako vrijedi za sve IT firme!**

Pitanja?

DA LI VAM SE SVIDJELO OVO PREDAVANJE?

Ocijenite ga i osvojite vrijedne nagrade!

Ocenjivanje predavanja kojima ste prisustvovali je moguće na dva načina:

1. Posjetom web stranici

<https://www.networkkonferencija.ba/profile/evaluation> vršite evaluaciju u sklopu svog korisničkog profila.

2. Ocijenite predavanja kroz konferencijske mobilne aplikacije pod nazivom NetWork Conference koje su dostupne za Android i iOS mobilne uređaje.

U oba slučaja potrebno je prijaviti se sa korisničkim računom sa kojim ste se registrovali za učešće na konferenciji.

Ispunjavanjem upitnika, pomažete Organizatoru u organizaciji narednih konferencija.
